

Speaker	Presentation Title
Harshit Agrawal	Gazing into the Crystal Ball - The Fog of Cyberwarfare Escalations
Shawn Anderson	Stop building for the cloud the way you build for on premises
Shawn Anderson	(Panel) Financial Industry CISOs
Dave Bailey	Why we hack tractors (John Deere)
Matt Brown	Intro to Bluetooth Low Energy Hacking
Cherie Burgett	Community Building in Trusted Circles
Gregory Carpenter	The Cat in the IRC Chat - intersection of OPSEC & deception
Dan Corlette	Predicting which CVEs will next appear on CISA's 'exploited in the wild' CVE list
Michael Daugherty	The Fast and Furious of Cybersecurity: The FTC and FBI Cooked the Books
Sean Donovan	CISO and Cybersecurity Executive Career Pathways & Branding - Attracting and Retaining Talent Cyber Post-Pandemic
David Etue	Adversary ROI
Kraig Faulkner	(Panel) Threat Management
Atulkumar Gaikwad	How we do Security Reviews at Slack?
Kathryn Goldman	
Javier Gonzalez	(Panel) Financial Industry CISOs
Javier Gonzalez	(Panel)CISO Summit Panel
Rich Greenberg	(Panel)CISO Summit Panel
Paul Groisman	(Panel)CISO Summit Panel
Gary Hayslip	(Panel) Financial Industry CISOs
Gary Hayslip	(Panel)CISO Summit Panel
John Johnson	Do we live in a simulation? Could we tell? Could we hack it?
Kate Kuehn	The evolution of the CISO - how to make the transition from technical to transformational
Bobby Kuzma	Oh, the Passwords You'll Crack: an Absurdist Look at Why Enterprises Still Suck at Identity and Access Management
Fred Kwong	Securing your work from home environment
Demetrios "Laz" Lazarikos	Board Level and Executive Reporting – How the Proposed SEC Cybersecurity Guidelines will Impact Us

Jeff Lenninger	(Panel) Threat Management
Rich Lindberg	Taking the Red Pill - Becoming a Guardian, but are you The One?
Aaron Lint	(Panel) Financial Industry CISOs
Rafal Los	Big Trouble in Little SOC -- Of Dragons and Fire Extinguishers
Edward Marchewka	Registering Enterprise Risk
Richard Marshall	(Panel) How do you prepare for the 100 year "cyber" flood that now happens every month
Andy Neller	(Panel) Threat Management
Bruce Norquist	Security Architecture Paradigm & Associated Baggage (PPT format)
Chris Novak	Verizon 2022 Data Breach Investigations Report
Kevin Novak	Cyber Transparency with the BoD
Roberta Osmer	Equity and Diversity in Cybersecurity
Charles Parker	Consumer Electronic Security Systems: Not that secure...still
Bruce Philips	(Panel) How do you prepare for the 100 year "cyber" flood that now happens every month
Phil Polstra	(Workshop) Forensics
Brandon Potter	(Panel) Threat Management
Chris Roberts	Welcome to the Dark Side, we own EVERYONE'S Cookies...
Ken Rowe	Performing Risk Assessments on a Shoestring [NIST-CSF-Assessment-Template]
Richard Rushing	(Panel) How do you prepare for the 100 year "cyber" flood that now happens every month
Parker Schmitt	Do we live in a simulation? Could we tell? Could we hack it?
Brook Schoenfield	Threat Model Trick or Treat?
Brook Schoenfield	Threat Modeling Workshop – An Introduction to Threat Modeling (and why I care)
Winn Schwartau	My First Hack was in 1958 (Then a career in Rock 'n' Roll taught me about security.)
Jason Shockey	Your Cybersecurity Career, Matched and Mapped
Sick.Codes	Risks of Jailbreaking Your Tractor
Nathan Sweaney	A Modern Approach to Pentesting Zero Trust Environments
Aaron Turner	M365 Threat Hunting - Discovering Microsoft Cloud Vulnerabilities

Stel Valavanis

Detection Is Your Superpower

Bob West

Top Five Native Cloud Security Risks and What to do About Them

Amelia Wietting

[Why we hack tractors \(John Deere\)](#)

Tom Wilcox

The Impact of Ransomware
