Manifest your inner Cyber Superhero

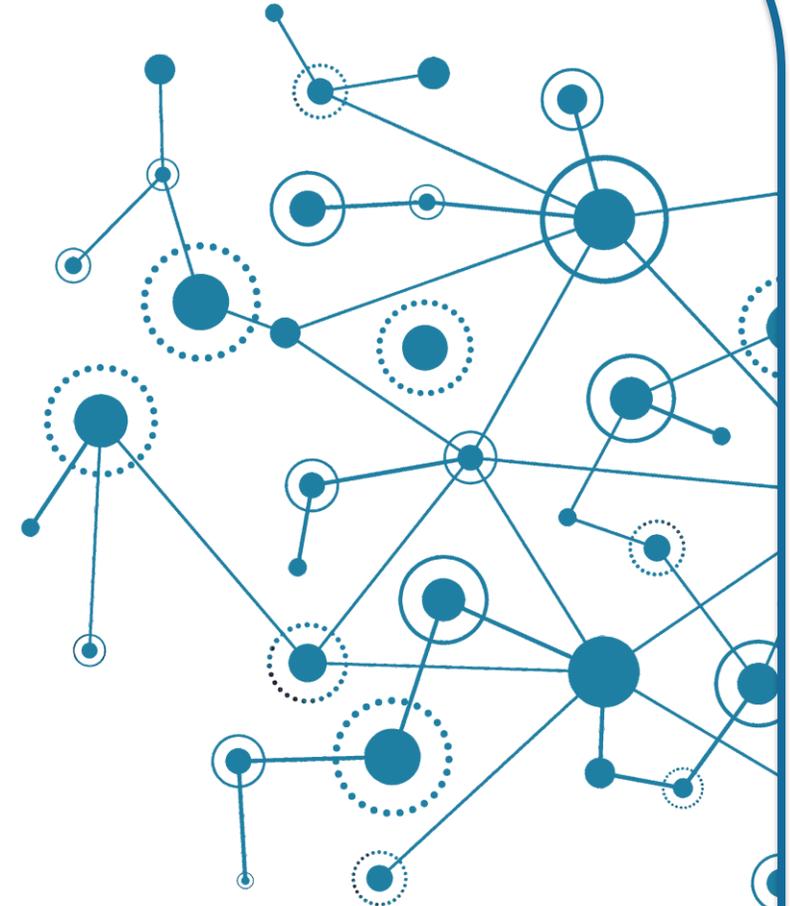

Fortifying the Future: Essential Cyber Insurance Strategies for CISOs – Enhancing Resilience in a Digital World

Dara Gibson

CEO / vCISO

Cybersecurity Readiness Advisors

October 2025

Agenda

- The Cyber Threat Landscape
- Introduction to Cyber Insurance
- Key Coverage Options and Policy Considerations
- Integrating Cyber Insurance with Security Protocols
- Communicating Value to Stakeholders
- Emerging Trends and Future Outlook
- Actionable Strategies for CISOs

2025 CORNCON
CYBERSECURITY
CONFERENCE

Cyber Insurance Knowledge + Active Risk Reduction = Solid Risk Management Program

The Cyber Threat Landscape

Recent Cyber Attacks

- Allianz Life Insurance
- Scattered Spider Campaign
- WorkDay
- Crumbl

Consequences

Protection was violated

Challenges

- Increasing sophistication of threats
- Regulatory pressures
- Resource constraints

**"CYBER INSURANCE IS NOT A
SUBSTITUTE FOR
CYBERSECURITY, BUT A
STRATEGIC LAYER OF DEFENSE
IN A HOLISTIC RISK
MANAGEMENT FRAMEWORK. THE
STRONGEST SECURITY POSTURES
COMBINE PROACTIVE DEFENSES,
INCIDENT RESPONSE PLANNING,
AND FINANCIAL PROTECTION
THROUGH INSURANCE."
- DARA GIBSON**

Key Coverage Options

First Party
Second Party
Third Party
Exclusions to Note

Policy Review Activity

Policy Considerations

Assessing Organizational Needs

- Tailor coverage to specific threats
- Limits, deductibles, and policy caps

Vendor Evaluation

- Choosing a reputable insurer
- Comparing policy terms and conditions

Insurability Controls

Complementary Measures
Insurer Requirements
Feedback Loop

INSURABILITY CONTROL ACTIVITY

14 INSURABILITY CONTROLS

Multi-Factor Authentication (MFA)

Email Filtering & Web Security

Privileged Access Management

Secured, Encrypted, Tested Back-ups

Endpoint Detection and Response

Vulnerability Management

Incident Response Readiness

Cybersecurity Awareness Training (Phishing)

Network Logging and Monitoring

Data Privacy

End of Life System Protocol

Supply Chain Management

AI Protocol

Remote Desktop Protocol Mitigation (RDP)

Cybersecurity Insurance Knowledge + Insurability Controls = Best Cyber Insurance Policy

Communicating Value to Stakeholders

C-Suite and Board Engagement

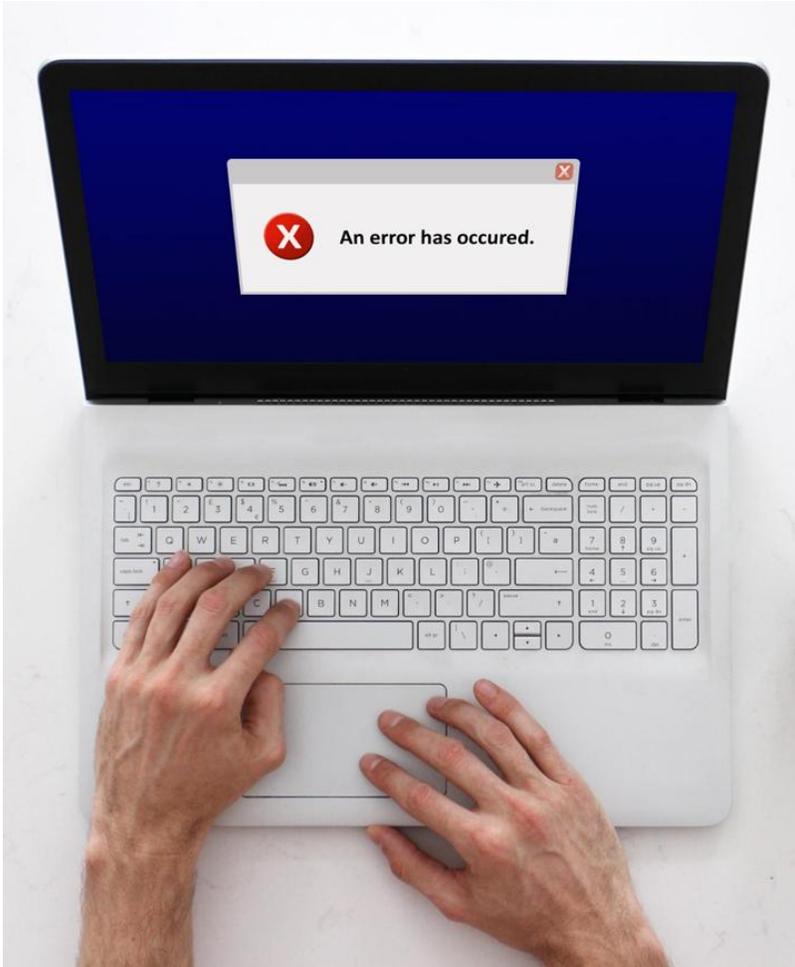

- Strategic Investment
- Business Continuity

Metrics

- Cost Benefit Analysis
- Potential for Cost Savings

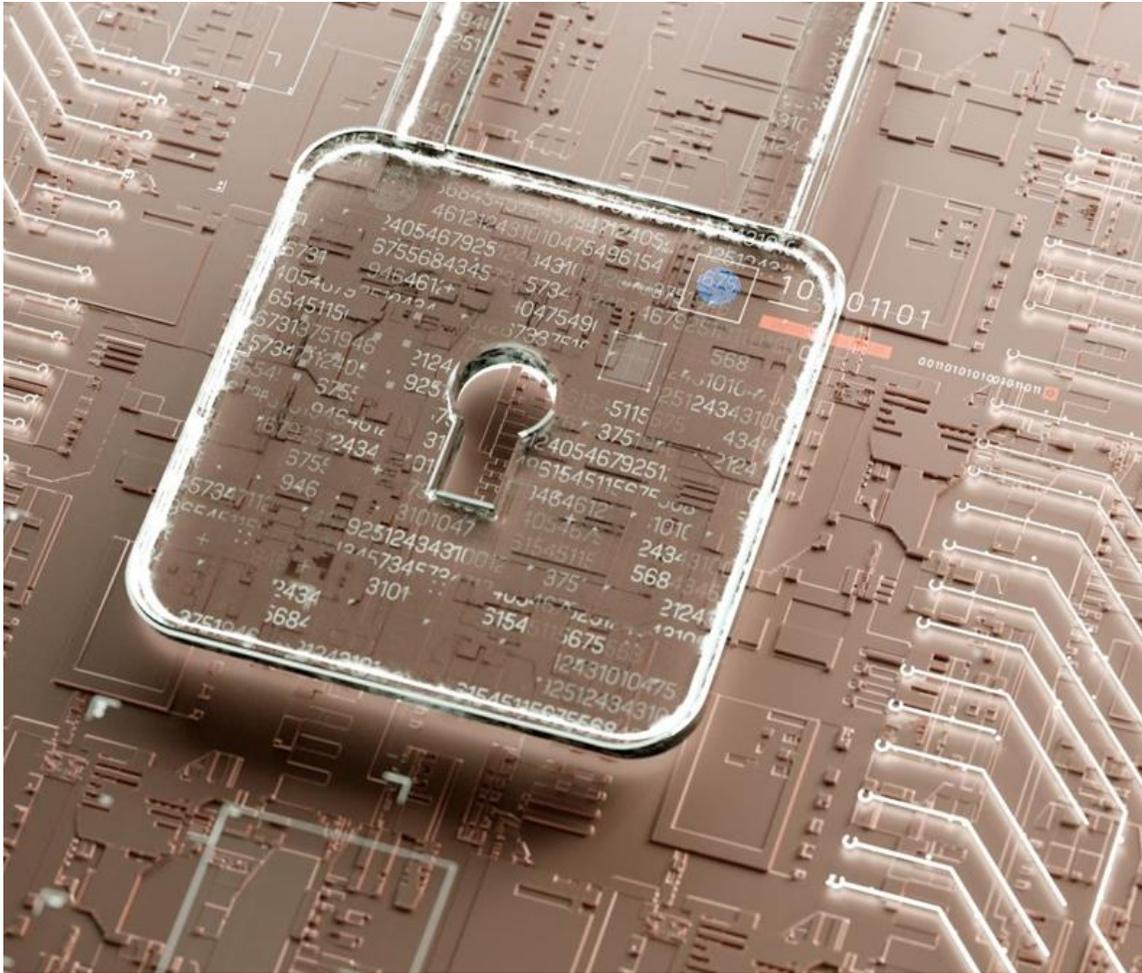

Cross- Department Collaboration

Emerging Trends and Future Outlook

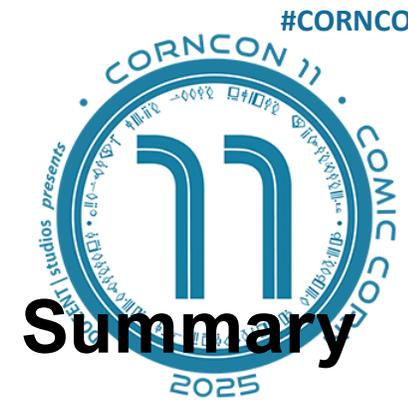

- What are the TRENDS in the Cyber Insurance Market for the second half of 2025?
- What are the IMPACTS on the cyber policies for renewal or acquisition?

Actionable Strategies for CISOs

- Evaluate Current Cybersecurity Coverage
- Risk Reduction Strategies
- Collaboration
- Stay Informed

Conclusion and Key Take Aways

- Importance of cyber insurance in the risk management strategy
- Key Cyber Insurability Controls
- Key considerations for selecting and optimizing policies
- The role of the CISOs in driving organizational resilience
