

Sep 29 - Oct 1, 2022 Davenport, IA

THE CORN MATRIX

Midwest Cybersecurity Conference

Register now for the 8th Annual CornCon Midwest Cybersecurity Conference!

- CISO Summit (full) Sep 29, 2022 [7 CPE]
- 2-Day Cybersecurity Conference Sep 30 - Oct 1, 2022 [16 CPE]
- Venue: Rivercenter, Davenport, Iowa (2 hours West of Chicago)

Cybersecurity and privacy are in the news and on the top of boardroom agendas. Attendees at CornCon include leaders in IT, security, and privacy from small firms to Fortune 500 companies. They come from media, financial, academic, healthcare, insurance, manufacturing, municipalities, federal government, and other industry verticals. Learn from the experts and share your voice as we make a difference as professionals and give back to our industry. Influential leaders from startups, large corporations, government, and academia come together for an annual event that addresses global trends and charts a course for leading change.

Topics Include:

- Hiring & Retaining Talent / Career Development
- Governance & Risk Management
- DevOps / Secure Software Architecture
- ICS / Embedded Systems & Hacking John Deere tractors
- Threat Hunting
- Educating the BoD about Cybersecurity
- Cloud Security
- Awareness & Education
- Forensics
- With Hacker Villages, Contests and a Vendor Expo

Attendees from societies (ISSA, ISC2, ISACA, IEEE, InfraGard...) will find discount codes available. Scholarships are available so everyone can attend. Attendees of the CISO Summit receive 7 CPE credits and attendees of the 2-day CornCon conference receive 16 CPE credits. This is a training event that all organizations should encourage their employees to attend. Please contact corncon@corncon.net with questions or to request a scholarship. *The CISO Summit is by invitation only.*

Please find more information on the conference, our full speaker and sponsor lists, and complete the CISO Summit application at www.corncon.net.

Bring your kids to our K12 Hacker/STEM Camp located adjacent to CornCon on October 1, 2022. Students of all ages engage in STEM activities, including: coding, lockpicking, crypto, ethical hacking, building computers, and much more! Lunch is included. Games, t-shirts and contests.

Thanks to our 2022 Gold and Silver Sponsors!
